Author Guidelines

- *Please avoid referencing other studies within the abstract to ensure its independence and clarity.*
- *Please ensure that all your section headings are numbered (e.g., 1. Introduction, 2. Literature Review). You can also use subheadings (e.g., 2.1.1. Management). All headings must be numbered consistently.*
- *Do not include tables as screenshots in your paper. Please create all tables manually. Likewise, draw any figures that can be created in Word yourself, ensuring they are editable. If a figure cannot be drawn manually, you can include it as a screenshot; however, the image must be clear and legible.*
- *Please ensure that the in-text citation you used is consistent and accurate with the corresponding reference in the references list.*
- *Format all your references in accordance with the APA 7th edition citation style throughout your paper. For detailed guidance on APA7, you can refer to: https://apastyle.apa.org/style-grammar-guidelines/references/examples/*
- *If your reference list includes sources retrieved from websites, please make sure to indicate the date of access for each web-based source in the reference section.*
