Dear [MP's Name],

My name is [your name] and I am writing to you today as a UK citizen in your constituency. I am writing to you about the inequality surrounding access to funding for infertility treatment for individuals who require surrogacy.

This matter is important to me because *[*insert your concerns but also its very impactful to include your own experiences for example, I have a condition which means I was born infertile and I feel discriminated against because I am not given the same opportunities as those who are able to access fertility treatment who don't require a surrogate OR I am supporting a person/couple who has a condition...*]*

[Provide as much detail as you feel comfortable about your experience, or your reasons as to why this is important. If you have applied for funding and been refused you could also share more details about your experience, if you feel comfortable to]

Infertility is a recognised medical condition and I am sure that supporting the health and well being of your constituents and ensuring that everyone has equal rights to access NHS funding and are not discriminated against because of a recognised medical condition, is also important to you.

Please could you *[*insert the action you would like them to take, for example 'discuss with the health Secretary my concerns and ensure that this issue is prioritised' or encourage them to get involved in APPGs (All Party Parliamentary Groups) related to surrogacy and fertility where these topics are discussed]*.

I am very passionate about this topic because of *[my own / my friends* experience]* and I am supporting the Fight For Surrogacy campaign which has also just launched a petition <https://www.change.org/p/make-fertility-funding-for-surrogacy-equal>.

If I can provide you with any more information, or if you would like to discuss this further with me then please do let me know.

I look forward to hearing from you soon.

Yours faithfully,

[Your name]
