

Dear Parents,

RE: LESSON ON NATIONAL SERVICE

We will be conducting a lesson next week about National Service, in commemoration of SAF Day and 55 years of National Service.

To enrich the children's learning, we would like the children to learn more about National Service from their fathers or family members who have served NS, prior to the lesson in school.

Some of the things that the fathers or family members can share with the children are:

1. In which service did they do their National Service: Army, Navy, Air Force, Police or Civil Defence. The child will do an appreciation craft gift accordingly and gift it to their father or family member.
2. What was their main role?
3. How was their experience?
4. What was an unforgettable or memorable moment with their NS mates?

The sharing will help the children to learn more about National Service on a personal level, and complement in-class lesson as they learn the importance of National Service and appreciate our NSmen.

Thank you.

Best regards,

[school]
