

Over the summer, the technology department has made upgrades to enhance cybersecurity and improve productivity among Norwin students and staff. The major change will be the use of Microsoft instead of Google. When you login to your iPad for the first time in August, please be mindful of the changes in the chart below.

Please note that your email address and password have not changed. You will still login with the same credentials to all new applications on the iPad.

Don't worry, students will be learning to use these resources throughout the school year, but just be aware of the new applications on your iPad screens.

Old App	New App	Icon
Gmail	School Email	
Docs	Word	
Sheets	Excel	
Slides	PowerPoint	
Google Drive	Microsoft OneDrive	
Google Meet	Microsoft Teams	
Self-Service	Student	

If you have questions regarding these changes, please ask your teacher when you return to school. We look forward to a great school year!
