

Subject Line: You like the idea, Greg?

Good day Greg,

Your Premium Product formulas are exceptional, and it's clear that they have been developed with great care by Greg Zorian III. It's no wonder customers and retailers are raving about your products.

I see that your Instagram engagements on your posts are quite low especially for a brand like yours.

Your Instagram has huge potential capturing more fishes from the sea that will increase your site's recognition.

Eye-catching images with intriguing captions can grab the attention of new active users.

Which is why I have something on the table for you that will make your Instagram a powerhouse.

Below I have produced 2 eye-catching posts with an intriguing caption that will grab your ideal users.

Are there any changes that you would like me to make?

Best Wishes,

Syed
