Sub: Bookkaro - All your questions Answered
!
Hey,

I am sure you've been flooded with emails about Bookkaro!

It is a must-have tool for any business looking to get **more booking, appointments and even qualified leads & sales!**

If you already know about Bookkaro, go here and grab the deal before the next price bump!
(link)

Some of you had questions about Bookkaro and I decided to address them in this email today..

1. **What is Bookkaro & how is it different from any other contact form?**

Imagine a customer visiting your website to schedule a spa service. But when you just have a contact form, most people are too lazy to type it out and wait for a reply from you. If you think they will pick up their phone to call you, then you are wrong again! When you have the Bookkaro's appointment system embedded in your page, the prospect can directly schedule an appointment with you even when you are not around based on your available time & slots that you have pre-set! How cool is that? You will never miss an appointment ever again and in fact 3X your leads & bookings almost instantly.

2. **I have no technical skills. Will I be able to set up these appointment systems?**

You and even a child can set up appointment systems on any page using Bookkaro! It has been designed extremely user friendly and highly intuitive! All it will take is less than 3 minutes to set up your first campaign on Bookkaro!

3. **Can I use this to provide services to other businesses?**

Ofcourse! One of the biggest opportunities that we see with Bookkaro is the ability to set up Appointment campaigns for struggling local & online businesses. 1000s of businesses are already looking for this service and you can be the one providing them with this service effortlessly using Bookkaro!

4. **Is there a possibility to collect payments for the booking that we take using Bookkaro?**

Yes you can! You can connect your Paypal or Stripe and effortlessly collect payments right at the point of scheduling the appointments.

5. **Can I add these campaigns to any website?**

Ofcourse, you can add these campaigns to your websites using embed code or even as a widget. You can even share campaign URLs anywhere including social media to get the traffic rolling!

I have addressed the major questions here!

But if you have anything specific, **please feel free to reply to this email** and I'll get them answered for you..

Remember this **deal is not staying for long** and I want to tell you that this is the **most useful tool for businesses** that I have seen in recent times!
