

ASTE Inclusive Science Forum Meeting
Agenda
January 6, 2018

1. Introductions
2. Review of charge of Inclusion Forum:
Charges/Objectives: To develop ways to enable ASTE members to improve understanding and sensitivity to human diversity. The Forum is concerned with science teacher education as it pertains to teaching science to students with disabilities and/or students whose race, class, ethnicity, sexual orientation, and gender have alienated them from full participation in science. The Forum acts as an umbrella group within which operate more focused interest areas, such as those listed above.
3. History and previous activities:
 - a. ASTE Workshops presented; flyer promoting ASTE sessions on inclusion sent out via FB and listserv
 - b. Sense/Brill Publication: *Towards Inclusion of ALL learners in Science Teacher Education*
 - c. Chair of ISEF is now ex-officio on Equity Committee
 - d. Themed paper sets in different strands
 - e. Breakfast table with resources
4. Ideas for future work
 - a. Collaborations with Council for Exceptional Children (CEC)
