**TO FINISH YOUR MEMORY, GENERATE A NON-EDITABLE PDF FILE.**
**Remember! Failing to do so, you take the risk that it is not properly attached.**

**Note:** Figures and images must be attached as a separate document (one page maximum, as a separate pdf file).

| Title |
|---|
|  |

| Principal Investigator | |
|---|---|

| **Publishable project abstract** (stick to the space available). The abstract should contain, background, hypothesis and aims, methods, expected results and potential impact. |
|---|
|  |

**Background and rationale** (maximum 12,000 characters including spaces). References cited in this part must be included in the next point.

**Relevant bibliography cited** (maximum 4,000 characters including spaces).

**Research hypothesis** (maximum 3,000 characters including spaces).

**Project specific aims** (maximum 3,000 characters including spaces).

**Project methodology** (maximum 8,000 characters including spaces). Experimental design, variables, data analysis and study limitations.

**Working plan** (maximum 8,000 characters including spaces). Stages of project development and distribution of tasks within the research team. Please include a Gantt chart.

**Brief CV of the Research team** (maximum 4,000 characters including spaces). Must include a description of the main domain of research and a <u>list of the five most relevant publications regarding the proposal within the last five years</u>. Attach also a full CV of the PI in a separate document.

**Expected results and potential impact** (maximum 4,000 characters including spaces).

**Significant infrastructure and/or any major items of technical equipment** (maximum 3,000 characters including spaces).

**Proposal budget** (maximum 3,000 characters including spaces). Including personnel, small equipment, consumables, subcontracting and travel expenses. Indirect costs are allowed up to 15% of the direct costs.
