

Agenda and minutes Data Stewards Interest Group - Meeting 39

Date: 24 April 2024 Time: 10:15 (coffee) - 10:30 (start) - 12:00 CEST	Location: virtual Chair: Marita Everhardt (DANS-KNAW)
Virtual via Zoom: https://us02web.zoom.us/j/87226024581?pwd=YnhGZndVYUpVbnBRWHlVanVDTGc5Zz09 Meeting ID: 872 2602 4581 Passcode: DSIG Attendees: See page 2	

Register here

[Agenda and minutes of previous DSIG meeting](#)

Time	Topic	Comments/results	Owner
10:15	Informal start: joint coffee		All
10:30	1. Formal start and introduction round		Marita
10:40	2. New and Newsworthy	Share your successes with the group; Share insights from workshops and seminars you have visited	All
10:55	3. ICYMI	RDM news-bits, in case you missed it	Mijke
11:05	4. Community matchmaking session TDCC-SSH Challenge Projects	Connect with your colleagues and further develop your ideas for the TDCC-SSH Challenge Projects (funded by NWO). This session is not limited to SSH professionals, input and insights from other fields are welcome, too!	Marita
11:55	5. Closure/any other business		
12:00	6. IG meeting end/feedback		All

MINUTES

1a. Welcome

- Zoom; try the gallery view
- These notes are for you! Please add comments, +1s, gifs
- Don't forget to provide feedback (see below, 7. Feedback)

1b. Community Participation Guidelines reminder

- Be respectful, honest, inclusive, accommodating, appreciative, and open to learning from everyone else.
- Do not attack, demean, disrupt, harass, or threaten others or encourage such behavior.
- Issues: report them to Mijke.

1c. Roll call

Add your name to the roll call below

Name / affiliation / social media / email

- Marita Everhardt, DANS-KNAW, marita.everhardt@dans.knaw.nl
- Bora Lushaj, Erasmus University, bora.lushaj@eur.nl
- Jetze Toubert, DANS-KNAW
- Fieke Schoots, Health-RI, fieke.schoots@health-ri.nl
- Petra van Overveld, LUMC Leiden, p.g.m.van_overveld@lumc.nl
- Willemijn Plomp, Leiden University, w.p.plomp@fsw.leidenuniv.nl
- Welmoed Bekius, University of Groningen, w.f.bekius@rug.nl
- Jutta de Jong, UMC Utrecht, j.r.dejong-35@umcutrecht.nl
- Jolien Berckmans, Hasselt University & Erasmushogeschool Brussel, jolien.berckmans@uhasselt.be
- Andre Castro, TU-Delft - Ruisdael Observatory a.i.castro@tudelft.nl
- Nils Arlinghaus, Thematic DCC Social Sciences & Humanities, nils.arlinghaus@dans.knaw.nl, ssh@tdcc.nl, Mastodon: [@NilsArlinghaus@social.edu.nl](https://social.edu.nl/@NilsArlinghaus)
- Mijke Jetten, Health-RU, Community Manager Data Stewardship and FAIR lead, mijke.jetten@health-ri.nl
- Jannine van de Maat, Sociaal en Cultureel Planbureau, j.van.de.maat@scp.nl
- Eduard Klapwijk, Erasmus Universiteit Rotterdam, e.klapwijk@essb.eur.nl
- Solveig Castelli, University of Groningen, s.d.castelli@rug.nl
- Anne Mutsaers-Aarts, Tilburg School of Social and Behavioral Sciences, a.m.w.m.aarts@tilburguniversity.edu
- Andrew Hoffman, CADS/CWTS@FSW, Leiden U, a.s.hoffman@fsw.leidenuniv.nl

- Aisling Connolly, Generations and Gender Programme at the Netherlands Interdisciplinary Demographic Institute, connolly@nidi.nl
- Annette Langedijk, Research partnership lead Social Sciences & Humanities, SURF, annette.langedijk@surf.nl
- Liz Guzman-Ramirez, TU/e, l.guzman.ramirez@tue.nl
- Olga Eisele (UvA), o.eisele@uva.nl

2. New and Newsworthy

Choose a question to answer: Share your successes with the group? Share insights from workshops and seminars you have visited? What do you need from this call? Nice upcoming event to share?

- Lesson plans, presentations and exercises from the Open Science curriculum at EhB available on OSF: <https://doi.org/10.17605/OSF.IO/YF72H> (Jolien)
 - This is the FAIR lesson plan repository I was just referring to: <https://elixir-europe-training.github.io/ELIXIR-TrP-FAIR-Converge/>. It is work in progress but we are looking for lesson plans on FAIR as well
 - Lesson 3 has a short section about FAIR. Last year, this was a more elaborate lesson, but it was an online learning path on the educational platform.
- Health-RI organises a second round of the FAIR data stewards basics course for starting data stewards in the health domain (5,6, 13 June). More to follow soon (Fieke)
 - [Bora] Is there already some info on previous courses for reference? See materials from the first round (2023): <https://doi.org/10.5281/zenodo.8116590>
- The Thematic DCC Social Sciences & Humanities will very soon publicly share [the first project idea submissions](#) that we have received so far. (Nils)
 - They will also be publicly presented by the project idea teams in short online meetings, either on May 2nd (next week Thursday) or on May 21st. [Sign up to our mailing list](#) to get notified about the exact project info and times!
- Andre on PID - material that describe what PIDs are and why they are important in the scientific research
 - Eduard: I use this exercise in an RDM course, might be helpful: <https://eduardklap.github.io/responsible-rdm/open-fair.html#using-persistent-identifiers>
- Andrew:
 - Workshop @ SURF Research Day on 30 May - 'What's behind the Data Management Plan of the future?'
 - Workshop will be 14:50–15:40 @ Danswerkplaats
 - SRD Programme: <https://www.surf.nl/en/researchday/programme-2024>
 - Request for info/example teaching RDM to undergraduate students (esp. first year bachelor)
 - Check the RDM for student presentation a few DSIG meetings ago (Utwente and RU)

- Link to DSIG meeting on RDM for students:
📅 240201_37 Data Stewards IG meeting
- [Workshop 'Depositing oral history data for reuse'](#) (Huizinga Institute): hands-on workshop led by dr Norah Karrouche (VU), in collaboration with DANS; Friday 17 May 2024, from 10 am to 1 pm at Utrecht University, Janskerkhof 15A, room 106; register before 1 May. (Jetze)
- Bora: tasks of interoperability community manager to inc
https://www.openscience.nl/sites/open_science/files/media-files/Call%20for%20Proposals%20-%20Strengthening%20local%20and%20thematic%20DCCs.pdf
 - Andre: familiarity with semantic+terminology technologies and services (taxonomies, controlled vocabularies, Ontology Lookup Service)
 - Andre: engage with community domain-experts to help define terminology the and terms' hierarchies to classify outputs
 - Bora: We were thinking along similar lines, glad to hear it is shared, I will reach out with further questions to Mijke/Andre if that is alright.
- For possible future discussion: I'm curious to hear about if/whether/how LDCCs are integrated with the Open Science programmes within different universities (Andrew)
- Welmoed: At the UG we're struggling with the use of data under license that is used for research purposes. Under European law you're allowed to text and data mine for research, but publishers often prohibit this or you have to pay them to do this. We have two use cases, that I can share if you're interested. Are others struggling with this as well?
- ODISSEI is hosting [The Future of Secure Data Sharing event](#) on the 5th of June, 2024, 09.00-13.30 (Utrecht), focusing on legislative implications and innovation opportunities for research following the introduction of the European Data Governance Act and Data Act. Welcome to join!

3. ICYMI

RDM news-bits, in case you missed it

- [Slides](#)
As promised, more info on the FIPs
→ <https://health-ri.atlassian.net/wiki/spaces/FSD/pages/281804814/2.+Creating+a+FAIR+Implementation+Profile+FIP>
→ <https://gofair-foundation.github.io/fip/>
- Join the [Slack channel](#) to stay up to date! Suggestion: download the desktop app, which has a notifications option and is much more user friendly than the browser version

4. Presentation & discussion

Links:

- [TDCC-SSH Challenge Projects](#)
- [Slide deck Community matchmaking session](#)

Notes

- **Questions for the attendees:**
 - **What challenge do you want to tackle with your project?**
 - Andre: looking for input from others
 - Bora: gaps filled by colleagues
 - Aisling & Olga: **FAIR for our survey GDP**: struggling with DOIs + FAIR on a variable level + connect different surveys
 - Jetze: ideas we could be part of from DANS & SSHOC-NL
 - Eduard: listening in; researchers struggle with metadata at a variable level, automate this process
 - Solveig: already involved in a project
 - Anne: not yet a project
 - Andrew: **multimodel ethnographic data** (films, sound recordings), big gap in conversations on how to make those materials FAIR
 - Annette & Olga E.: PDI-SSH project - **Twi-XL cross media data** research project (newspaper, website KB - connect other resources and broaden the scope (facebook) to make a twi-XL next level. Surf, Groningen, Beeld en Geluid
Here the website of the Twi-XL project; <https://twi-xl.humanities.uva.nl/>.
The idea is to make a Twi-XL “next level” to add more media provide
 - Fieke: listening in
 - **What are you looking for during this session?** (e.g., input/insights, collaborators)
 - Aisling & Olga: Insights, collaboration
 - Eduard: would like to contribute
 - Anne: would like to join from Tilburg University
 - Andrew: looking for collaborators
 - **Any specific questions you have for your colleagues?**
 -
- **Breakout rooms:**
 - 1. FAIR for survey data
 - 2. multimodel ethnographic data
 - 3. twi-XL

1. FAIR for survey data

Notes

- *Participants: Olga Grunwald, Aisling, Jetze, Liz, Fieke, Eduard*
- Olga introduces the data collections and the issue of connecting the variables. One survey collected in the 90's (no vocabularies yet). Needs technical expertise in the team

- Jetze tells about the SSHOC project in which DANS participates. One subtask is harmonization at variable level. Difficult to find the right level. Looking for sensible use cases. Come to agreements with main stakeholders. DANS could have a role in the challenge project.
- Eduard: is one of the challenges that the data has been collected in the past but aren't yet linked to vocabularies? Olga: that would be part of the larger project, to use vocabularies. Odissei one party to contact, also harmonizing metadata.
- Fieke mentions efforts by cohort studies to harmonize metadata, both retrospective and prospective
- Eduard:
<https://individualdevelopment.nl/2020/06/11/funding-for-harmonized-metadata-infrastructure/>
- Liz: colectica platform?
- Eduard: do you already have an idea on how the outcomes can benefit a wider community?
- Fieke: important that the broader SSH community can benefit from the outcomes
- Jetze: the call is about coalition building; the deliverable / tool may be less important. Have a well-framed question with a buy-in from the main parties
- Olga: the survey has data from over 20 countries. Can that be funded by the TDCC SSH call?
- Jetze: international scope is important but the work should at least benefit the Dutch community
- Liz: how about legal issues? Olga: we have data access agreements. For this project we are more interested in the metadata than in the actual datasets.
- Olga: should the proposal address researchers or data stewards / managers etc. Fieke: the call is not for research questions but to enable research by addressing challenges related to data availability / reuse etc.
- <https://opted.eu/designing-an-infrastructure/wp10-legal-and-ethical-framework/>

multimodel ethnographic data

Notes

- *Participants: Andrew, Andre*
- Existing audio/visual (FAIR) repositories?
- Community governance
- Peer review infrastructures in the setting of multimodal ethnography
- Models to build community
- Change the language around FAIR-data & RDM to be more welcoming from disciplines such as ethnographic
- Language for FAIR data (projects) that are not fitting to the art or humanities. Push a different language to cater the needs for this community
- Group will have an additional meeting to plan the project. Others are welcome to join

twi-XL

Notes

- *Participants: Bora, Olga, Annette, Anne, Welmoed*
- Discussed the needs of the community
 - Different resources, archives

- Three elements for proposal
 - Design infrastructure for searching different archives
 - Multimodal analysis
 - ELSI elements of these resources. Rules should be the same for all, but - whole project or WP on that. S
 - WPs on Training, guidelines, use cases + a survey on ELSI

5. Closure/AOB

- Upcoming meetings:
 - Next online DSIG meeting will be on May 14, by TDCC Natural & Engineering Sciences with KNMI - Royal Netherlands Meteorological Institute.
 - Link to agenda & registration form will be shared via the DSIG and TDCC [website](#) and usual channels (LinkedIn, Slack, Twitter, mailing lists etc.)
- Do you also want to chair one of the DSIG meetings? Have ideas about a topic? Contact Mijke Jetten (mijke.jetten@health-ri.nl)
- Don't forget to provide feedback (below)

6. Feedback

KEEP: What worked well?

•

ADD: What new ideas do you have?

•

LESS: What didn't work?

•

MORE: What worked well and should we do even more?

•
