Release Date: March 23, 2018

Main Actors/Actresses (top 5 or 6):
Rinko Kukichi as Mako Mori
John Boyega as Jake Pentecost
Scott Eastwood as Nate Lambert
Cailee Spaeny as Amara Namani
Burn Gorman as Dr. Hermann Gottlieb
Charlie Day as Dr. Newton Geiszler

Trivia (keep it short):

In a interview with Collider in November 2014, Guillermo del Toro talked about setting the stage for Pacific Rim 2 (2017) in stating: "It's a few years after the first one. It's not an immediate follow-up. It is the world having been freed of Kaiju, what happens to the world after - what happens to the Jaeger technology once the Kaiju are not a threat. It's quite a jump."

Guillermo del Toro stepped down as a director, in order to direct The Shape of Water (2017) instead, which went on to win the Academy Award for Best Picture.

In the final battle between Kaijus and Jaegers, you will find Unicorn Gundam statue and Anaheim Electronics name on building.

Bracer Phoenix is just the second Mark-5 Jaeger, the first being Striker Eureka. All of the other Jaegers, (Gipsy Avenger, Saber Athena, Titan Redeemer, Guardian Bravo) are Mark-6's.

The codename of three kaijus combination seen on Newt's handheld tablet screen, is Megakaiju. It refers to combination of Power Rangers' zords forming bipedal mecha, Megazord.

Well Known Quotes:
Mako Mori: Jake, your father always said that he wanted you to be a pilot.
Jake Pentecost: He said a lot of things. I'm not a hero like he was.

Amara Namani: The Kaiju, they're going to come back. I'm not going to be stuck waiting for someone else to come save my ass.

Jake Pentecost: There are pilots we remember as legends, but they didn't start out that way. They started out like us. This is our time to make a difference! Do you understand?! Jaeger pilots, do you understand?!
