

Social Media

We have provided sample copy below, but we also encourage you to use this as a chance to highlight available opportunities specific to your school, district or community. Some ideas include: prominent employers, prominent industries (agriculture, medical, etc.), local cultural experiences (museums, events, field trip sites, etc.)

Flyers

We have provided two flyers - one for middle school and one for high school. The flyers include blank lined spaces for you to highlight the best employees at your school or in your district for students and parents to reach out to with questions related to workforce goals.

The flyers can be used digitally or printed on 8.5x11 or 11x14 paper.

FAQ

The FAQ is meant to provide background information on career planning with resources for both students and families. This includes information on course options in high school to prepare for a career, college or military service.

Factsheet graphics

The factsheet is meant to provide information on the top industries, companies and credentials in North Carolina. We encourage you to use these to drive students toward career options within your community for internships, shadow opportunities, careers, etc.
