

## 8. Information and data principles

### Worksheet 4: Maintenance and post-occupancy evaluation (learner)

1. Name the three or more types of maintenance.
2. Where does a CMMS collect its data from?
3. What are the main types of data you can collect during a post-occupancy evaluation?
4. Imagine you have been asked to conduct a post-occupancy questionnaire for an office building after handover, to ask users about their experience of the building. Write 5–10 questions for the questionnaire.
