

RISHITA SANGHAVI

AI & Cloud Engineer | Developer | Data Science

rishita.sanghavi07@gmail.com | +91-9377477655 | linkedin.com/in/rishita07 | rishita-sanghavi.netlify.app

Ahmedabad, India | Open to Relocation

PROFESSIONAL SUMMARY

Motivated AI & Cloud Engineering student at JG University with hands-on experience in frontend development, data analytics, cybersecurity, and cloud architecture through industry-recognized simulations with JP Morgan, AWS, Deloitte, TCS, and White & Case. Proven leadership managing large-scale events (2,000+ attendees), cross-functional teams of 50+ volunteers, end-to-end project execution, and budget oversight. Multilingual communicator (English, Hindi, Gujarati, and more) with a global mindset. Actively seeking international internship and graduate opportunities; open to relocation worldwide.

EDUCATION

BTech — Computer Science & Engineering (AI Specialization) | JG University, Ahmedabad, India

Aug 2025 – Sep 2029

- Specialization: Artificial Intelligence | GPA tracking in progress (First Year)
- Relevant coursework: Data Structures, AI Fundamentals, Cloud Computing, Cybersecurity, Data Science
- Eligible to work internationally via student visa sponsorship or graduate work permits

PROFESSIONAL SIMULATIONS & TRAINING

Software Engineering Job Simulation | JP Morgan Chase & Co.

Aug 2025

- Completed tasks in backend systems, API design, and software engineering workflows used by global financial institutions
- Gained exposure to enterprise-grade coding standards, version control, and testing methodologies

Data Analytics Job Simulation | Deloitte

Aug 2025

- Analyzed datasets and produced business insights using Excel and data visualization tools in a consulting environment
- Developed skills in data cleaning, interpretation, and presenting findings to stakeholders

Cloud Designing Job Simulation | Amazon Web Services (AWS)

Aug 2025

- Designed scalable cloud architecture solutions using AWS core services (EC2, S3, IAM, VPC)
- Applied best practices in cloud security, cost optimization, and infrastructure design

Cybersecurity Analyst Job Simulation | Tata Consultancy Services (TCS)

Nov 2025

- Conducted threat analysis, vulnerability assessments, and incident response planning for enterprise systems
- Applied frameworks including risk management and security compliance protocols

Business Communication & Management Simulation | White & Case LLP

Nov 2025

- Developed professional communication, negotiation, and project management skills in a global law firm setting
- Practiced cross-cultural business communication for international professional environments

InternShala Student Partner | InternShala | JG University

Sep 2025 – Present

- Promoted internship and certification opportunities across the university campus
- Developed outreach, marketing, and stakeholder engagement skills

FRONTEND DEVELOPMENT PROJECTS

Portfolio: rishita-sanghavi.netlify.app | Tech Stack: HTML5, CSS3, JavaScript

- Chess Game — Drag-and-drop functionality with move validation logic
- LinkedIn Clone — Full social networking UI layout replication
- Job Tracker — Application status tracking dashboard with performance metrics
- Weather App — Real-time weather data integration with location-based lookup
- Task Manager — Priority-based to-do system with time management features
- Scientific Calculator — Supports trigonometry and calculus functions
- Additional: Quiz App, Pac-Man, Tic-Tac-Toe, Rock Paper Scissors, Guess the Number, Checklist

TECHNICAL SKILLS

Programming	HTML5, CSS3, JavaScript, C, Python (Fundamentals)
Cloud & AI	AWS (EC2, S3, IAM, VPC), Generative AI, AI Product Building
Data & Analytics	Microsoft Excel (Advanced), Data Science, Data Visualization
Cybersecurity	Threat Analysis, Vulnerability Assessment, Risk Management
Design & Tools	Canva, Microsoft 365 (Word, Excel, PowerPoint, Teams)
Soft Skills	Leadership, Project Management, Cross-functional Coordination, Public Speaking
Creative	Media Production, Scriptwriting, Videography, Music Production

CERTIFICATIONS & ACHIEVEMENTS

- Build and Grow Hackathon — Google Developers Group (Jan 2026)
- Generative AI — OutSkill (Oct 2025)
- Product Building with AI — OutSkill (Nov 2025)
- Data Science — IIT Madras via InternShala (Aug 2025)
- Microsoft Excel — IIT Madras via InternShala (Aug 2025)
- C Programming — Great Learning (Nov 2025)
- Cybersecurity Analyst Simulation Certificate — TCS (Nov 2025)
- Business Communication Certificate — White & Case (Nov 2025)
- Cloud Designing Certificate — Amazon Web Services (Aug 2025)
- Software Engineering Certificate — JP Morgan Chase (Aug 2025)

- Data Analytics Certificate — Deloitte (Aug 2025)

LEADERSHIP & EVENT MANAGEMENT

Event Director & Team Lead | JG University — Navratri & Youth Festivals

2025

- Directed large-scale cultural events with 2,000+ attendees; managed end-to-end logistics, timelines, and execution
- Led cross-functional volunteer team of 50+ members across operations, media, and coordination departments
- Secured and managed sponsorships and event budgets, ensuring on-time delivery within resource constraints
- Demonstrated leadership under pressure with measurable success in audience engagement and event quality

LANGUAGES

Professional Proficiency: English, Hindi, Gujarati | **Intermediate:** Sindhi, Marathi | **Beginner:** German, Korean, French

GLOBAL AVAILABILITY & VISA STATUS

Indian national. Open to relocation worldwide for internship, co-op, or full-time opportunities. Available to apply for student visas, graduate work permits, and sponsored. Multilingual background and cross-cultural communication skills support seamless integration into international teams.
