

Note:

For **Bachelors** and **Masters** degree courses the **maximum page numbers** allowed for publishing must be **15**. For **PhD** its **25**. Kindly stick to this page count. Structure of the write up for publishing should be as described below.

TITLE OF THE PROJECT

Name of the Author:

Email of the author:

Course name:

University:

Co-author name: (if required)

ABSTRACT

The abstract should concisely describe the background of the paper, objectives, brief literature review, research method, result/findings, conclusions, and implication of the study. It should be about 150 words (minimum) and 350 words (maximum).

Keywords: Keyword1, keyword2, keyword3, keyword4, keyword. (5 words)

INTRODUCTION

Background of the study

Provide an adequate background. Explicitly state the gap in the literature, which signifies the significance of your research.

Statement of the problem

Explain the Statement of the problem

Study objectives

Main objective

State the main objective here

Specific objectives

State the specific objectives here in lowercase roman numeral

- i. ***
- ii. ***

Hypothesis/Study questions

- i. **
- ii. ***

LITERATURE REVIEW

Theoretical framework

Introduce the theories/models that will underpin your research.

Empirical review

Review studies done before on similar topic and locations. Provide a brief summary of each study, including the authors, year of publication, research questions, methods, sample size, and key findings. Evaluate the strengths and weaknesses of the studies reviewed. Explain how the review informs and supports your research project.

Research gaps

Identifying the gaps helps to justify the need for your research

Conceptual framework

Provide a diagram of the conceptual framework. Identify the independent, dependent, and mediating/moderating variables in your study. Describe how the identified variables are related to each other.

RESEARCH METHODOLOGY

This section includes research design, data collection instruments, target population, the procedure of data collection, and data analysis

Research Design

Location of the study

The target and sample population of the study

Data Collection Methods

Data processing and analysis method

RESEARCH RESULTS, DISCUSSION AND CONCLUSION

Return rates

Provide a table and briefly explain the same.

Results and discussion

Present the results of your work. Use graphs and tables if appropriate, but also summarize your main findings in the text. Connect your findings with the literature review of any past studies or theories you used in your research.

Conclusion

Provide the conclusion to your study, and final words on the value of your analysis, research, or paper. Limitations of your study should be addressed. Recommendations for future research related to your topic should also be mentioned.

REFERENCES

References (follow the APA 7th edition in referencing)

Use Reference Management Software (Scribbr APA generator, Mendeley, Zotero, EndNote, or Refwork)

N.B.

- i. For Bachelors and Masters degree courses the maximum page numbers allowed for publishing must be 15. For PhD its 25. Kindly stick to this page count.

- ii. **Times new romans** font size **12** must be used in the whole document
- iii. The **TITLE** and the main **topics** should be in **CAPs** as shown above while sub-topics should be **small letters**. Both must be in **bold**

END
