

Syllabus

Class: Intro to Spanish 1
Teacher: Yazhini Shanmugakumar
School/Grade Level: Northview High School / 10
Email: yazhinishanmugakumar@gmail.com

Purpose: This class is for students, mostly in grades 5-7, to build a basic foundation to learn Spanish in the future to help their future. For this class, students do not need any background knowledge, but just the passion to learn a new language. Although most students who need this class will be in grades 5-7, I think this class should be open to all students that are interested.

Schedule: The class will be 1 hour long every monday at 3 PM. Classes will start the week of June 24th (as said on the Discovery Circle website).

Structure: The first five minutes will just be welcoming to make sure everyone is joined. Then, there will be a 10 minute warm up discussion to make the students comfortable in the virtual learning environment. After the warm up, there will be a 30 minute learning lesson on content that students will be expected to practice outside of class time. In the last 15 minutes, there will be a kahoot or quizlet live game that the students will play to implement the information they learned during the class.

Tools: Google meet will be used to host these classes so students should have access to that.

Itinerary:

Date:

June 16: Greeting others and
Introducing yourself

June 23: Learning numbers and
implementing it

June 30: Telling time

July 7: Colors

July 14: Classroom Objects

July 21: Family & Description

July 28: Food OR Final Review for
overall course
