==== Post 2015 Career ====
Later, Truffles joined RM after following up with a lead on his old friend [[DrMach]], who was being interviewed by RM staff about
his relations with MUGEN that were brought to light in [[AlbertsStuff|AlbertsStuff's]] video titled
''[https://www.youtube.com/watch?v=UHxlDWg-3YM&t=322s i just got a disturbing message on roblox...] ''Truffles stayed in Roblox's
Myths because of its Shadelight Investigation.

On 3/1/18 it was announced that smart was to be one of the recruits of the first batch of Probationary Agents led by Taphies, who
had recently been promoted to RM Council and replaced Stefano as Intelligence Director (after [[Stefano]] decided to lead Roblox's
Myths Task Force instead). He worked to the rank of Overseer, possessing temporary control over the RMIA multiple times.

On 3/11/18 he founded the Robloxian Myth Hunters Wiki after discussing with razorsharktooth the concept of an all-encompassing
database to help newcomers adjust to the community. He wrote many of its first pages along with former RMH Administrator Monocoled.

Smart was formerly an Overseer (essentially an assistant Director) in RMIA. He was also the appointed successor of Taphies in
regards to leadership of RMIA under emergency and in the event that she was to step down or leave. This has occurred on 5/27/18
when Taphies took a break for ten days. In that time, smart was proclaimed Temporary Director of RMIA. This happened a second time
6/9/18 through 6/11/18. He was also a Supervisor during the time being.

On 8/1/18 he left the RMIA to pursue RMH interests regarding RMH and this Wikia.

On 6/8/18 [[Cenoglyphic]] promoted him to RMH Admin.

In early January 2019, Truffles decided to join back the RM Foundation, for personal reasons. This is where he peaked in his agent
performance, conducting a long investigation on [[The Days Union]].

As of January 31st, of 2019, Smart changed his name from "smartruffy" to "smart_truffles" he said it was mostly to stop the
confusion with people calling him "Truffy".
