Subject: Telehealth for Urogynecology

Dear Dr. Cohen,

I hope this email finds you well. I am writing to ensure that you and your colleagues are aware of the services that we continue to successfully offer to our patients. Please would you kindly send this along to your team and any provider you think would benefit from this information.

As members of the BILH medical community provide exemplary care to our patients during the COVID-19 pandemic, our Division of Urogynecology/Female Pelvic Medicine and Reconstructive Surgery remains committed to providing care for patients who suffer from pelvic floor disorders.

Our five providers are easily accessible via telehealth appointments to provide patients with in-depth assessment from the comfort and privacy of their own homes. We are available to evaluate symptoms of pelvic organ prolapse, urinary incontinence, overactive bladder, recurrent urinary tract infections and fecal incontinence, among other conditions. Our Center for Intimate Health and Wellness provides sensitive care via telehealth to patients who have concerns about their sexual health and function. We are open and have appointments available **Monday through Friday, from 8 a.m.- 5 p.m.**

Referrals can be placed through OMR, faxed to (617)-754-8645, or scheduled by phone at (617)-667-4070.

Patients can also be directed to our websites below:

Please let us know if we can answer any questions. As always, we are here to support you and your patients in any way we can.

Kind regards,

Roger Lefevre, MD

Director, Division of Urogynecology/Female Pelvic Medicine & Reconstructive Surgery
