By signing this application, I certify the answers are true and complete to the best of my knowledge.

If this application leads to acceptance into the Advanced Manufacturing Innovation Pathway, I understand that false or misleading information in my application or interview may result in my release from the program.

After the application is submitted, each student that applies will participate in an interview. The interview committee consists of the Principal, Assistant Superintendent of Teaching and Learning, Guidance Counselor, and STEM Teacher. The applicant will be rated on each question using a rubric. The Committee will then meet and review each candidates qualifications

Selection will be based on a number of factors including the application, interview, and available slots. If there are more candidates than openings, admission will be through a lottery system.

Qualified applicants are considered for all open positions without regards to race, color, sex, sexual orientation, gender identity, religion, disability, pregnancy and pregnancy-related condition, age, active military/veteran status, ancestry, or national or ethnic origin. In addition, no student will be disqualified based on prior academic performance or perceived level of support, including students with disabilities, English Language Learners, or Students from Economically Disadvantaged Homes, etc.

Section III- Questions:

Please answer the 4 questions below using the space provided. If you need additional space, please feel free to attach additional pages if necessary.

1. Why should you be selected for admission to the Innovation Career Pathway Program?

2. What are your potential career goals at this point?

3. When faced with a difficult assignment or task, how do you tackle it?

4. This is a serious commitment, what challenges do you anticipate and how will you overcome those challenges?
