

MATHEMATICS– GRADE 3

Learning Competency 13:

Compare numbers up to 10,000 using =, >, and < in real-life situations.

PISA-LIKE ALIGNED TEST ITEM:

Three Grade 3 pupils saved money from their allowances for Christmas gifts:

- Sevi: ₱3,450
- Anne: ₱3,540
- Trish: ₱3,405

A classmate said: “Trish saved more money than Anne.”

Which statement correctly evaluates this claim?

- Yes, because 3,405 is greater than 3,540.
- Yes, because Trish has more digits in her savings.
- No, because 3,405 is less than 3,540 when comparing place values.
- No, because the numbers are almost the same so comparison is not needed.

Answer: C
