

SL: Brandon, this is important!

Hello Brandon,

I found a way you could get more views on your YT videos. Your thumbnails are the initial point of attraction for the audience. If I improve the quality of your thumbnails, they will definitely increase your YouTube presence and monetization.

How about I make some free thumbnails for your next 5 videos?

This is just a quick example of a thumbnail I made for your last video:

Would you use this type of thumbnail in your videos?

Sincerely,
Alexander
