

Medications in School Reminder:

In accordance with MA State law, any students needing prescription, over-the-counter (such as Tylenol, Motrin, cold medicine, topical medicine, sunscreen, and cough drops), herbal, vitamins, or supplements medicines in school on a daily or as-needed basis must have a written medication order from a licensed healthcare provider with the provider's signature. A written parental/guardian consent is also required.

Medications must be brought in by a responsible adult such as ADHD medicine or a responsible student as deemed by the parent and nursing staff who has life-saving/emergency medications such as an asthma inhaler, epi-pen auto injector, anti-seizure medication, pancreatic enzymes, and/or insulin. Medication must be in the original pharmacy container with the pharmacy label on it and can only be accepted by school nursing staff.

Psychotropic medication such as ADD/ADHD medicine **CAN NOT** be sent in with any student. Students can not carry medication on them unless the meds are the life-saving/emergency medications listed above. Please contact your student's School Nurse with any questions.
