Batch (2022-2025)**

Synopsis/Executive Summary

A synopsis is a brief or condensed summary of the project for higher-level management positions. It should be about 3-4 pages in length. It should comprise problem definition, objectives of the project, methodology and tools used, findings, limitations, directions for future development,.

Synopsis Format

FORMAT OF THE PROJECT PROPOSAL

1. **Title of the Project**
2. **Problem Definition:** If an old information system is the topic of dissertation, what are the problems with the existing system? In what ways your proposed system will improve the existing system? If a new system is being proposed, how will it fulfil the user requirements? Explain the objectives of the Project.
3. **Literature Review:** A literature review is a type of academic writing that summarizes, analyzes, and evaluates the existing knowledge on a specific topic.
4. **Methodology:** Explain which methodology you will adopt for analysis and design, e.g., Classical SDLC Method, Object Oriented Analysis & Design Method, Structured Analysis & Development Method or Prototype Method.
5. **Tools:** Explain the software tools and platform that you propose to use in the project.
6. **Research Gap:** A research gap is a topic or area of research where there is a lack of information or insufficient research that prevents a conclusion from being reached
7. **References:** References in a research paper are a way to acknowledge the sources of information used in the paper and give credit to the original creators of the work
