

Project: The SpaceCraft

We're asking for: £1971

What we'll do with it: Hello! The SpaceCraft is a brand new local project reducing social isolation and loneliness among local older people through bringing people together to craft a range of beautiful unique gifts and treats.

When it will happen: We're starting now – with this funding, we'll launch our first project 'Brixton Booties' - a range of beautiful baby booties proudly knitted by local older people!

Why it's needed: Older people in Brixton are at 'high risk' of loneliness (Age UK). Loneliness and social isolation are closely linked to depression, self neglect and mental illness.

In our changing community, The SpaceCraft offers local older people the space, support and resources to come together and develop self esteem and skills, build social connections, have fun & celebrate talents – breaking down social isolation and improving social & mental wellbeing.
