[restaurant ambience // laughter fades in] I know, I know, I'm such a dumbass sometimes. But you know that about me. I don't see the big picture all the time and before it's too late I make an ass out of myself. **[chuckle]** How are you feeling right now?

Listener Responds

You've got nothing to be nervous about. Nobody knows the little game we are playing. No one knows that you can't talk to the wait staff and that I'm making all the choices for you. They probably just think you're shy. They also don't know that you have a vibrator inside you and I have the handy little remote in my pocket. They will know if you keep looking around like that. You're acting suspicious. Are you too distracted by the feeling of the bullet vibe filling up your hungry little hole to even focus on eating your meal? Come on, it's your favorite. You know what? I know how to get a response out of you.

[button click] Yeah, that's better. Now you need to watch your facial reactions, wouldn't want people to know your dirty little secret, huh? What do you think our waitress would say if she found out about the filthy little game we are playing? That you are such an eager little puppy that I can't even take you outside without playing with your needy hole. Do you think she would be disgusted in you? Or do you think she would want to join us? How could she deny playing with a pretty little thing like yourself? I don't think she could, my pet. Maybe the next she comes over, I'll actually let you order something for yourself. It would be hilarious to watch you try to keep it together. I would ramp up the plug all the way to the highest setting right when you open your mouth and watch you struggle to keep what little composure you have as you order another drink. You don't want to get us kicked out, do you?

Listener doesn't want to be kicked out

Because that would make me upset. Such a lovely meal that I'm paying for and you are such a slut you can't keep it together for one hour. Am I going to have to take you into the bathroom and fuck you right here and now? Come on, have a little bit more control of yourself. You don't want to embarrass me, do you? It would be such a shame if I have to fuck you in the bathroom and punish you when we get back. Make that ass hurt to even sit down on. For the next few days, you'll wince every time you pull up your pants if you don't keep it together. It shouldn't be hard for you. It's on the lowest setting too. If I really wanted to challenge you, I would amp it up.

[button click and laugh] You are too funny. So adorable when you get like this. Are you nervous that someone is going to hear it? Look over at that couple over there. The blonde haired girl with the brunette guy. They look so vanilla. They would look at you with disgust if they found out what a kinky little pup is sitting at the table on the other side of the restaurant. The old couple behind us? They would be so disapproving if they heard the vibe pulsing away inside your hole. If our waitress heard it, she would know what an easy slut you are. I might not even have to pay for dinner, could just whore your hole out to the restaurant staff and let that be payment for the night. It's not like you would mind, you would probably happily bend over and let the entire kitchen staff run a train on you while I watched. Maybe even film it and post it on reddit. Really show everyone what a filthy little thing you are. What a beautiful whore you are becoming under my tight control. What color are you right now, my pet?

Green

Green? Good. If I take it too far, let me know. I don't mind if you say yellow or red. You know this. Don't keep this up just because I'm having fun. It's more important for you to enjoy what we are doing. I am definitely enjoying what we are doing. Watching you try to steady your facial reactions. You are trying so hard to be subtle. Trying so hard to be good. It's adorable how pathetic your attempts are. I am loving every second of this. **[chuckle]** What? Are you worried that the others are going to be hearing our conversation? They are too engrossed in their own food, their own conversations, their own life to be paying attention to us. To everyone here, we are just a nice and normal couple. They don't know you have a vibrator in you and are struggling to keep quiet just like they don't know I have the remote in my pocket. Would be such a shame if one of my fingers slipped and made it ramp up again. But these buttons are so sensitive. Just the lightest touch and it goes up. You are struggling so much with this setting though, should I do it?

No

You don't want me to go up, yet? Are you sure? How sure are you? Because it would be so easy to just press the button and have you let out the most embarrassing moan. There would be no false illusion as to what we are doing. No one would think you are a good mannered person sitting at a table for a nice meal. They would all see you for the slut I know you to be. And you love being my personal whore, don't you? My little plaything?

Listener Agrees

I want you to say it out loud. Let me hear that shaky voice of yours.

I am yours.

So good for me, my pet. I can see that got you all flustered. I wonder why saying that out loud got you more flustered than the actual vibrator inside of you. Does being mine turn you on that much? Do you like the feeling of being owned that much?

Listener Agrees

Isn't that adorable? My little puppy loves the feeling of being owned. Maybe I should get you a collar with my name on it so that everyone knows who you belong to. Wouldn't want other people to start getting ideas about my pet. Such a good puppy, so happy to be played with, so eager to please, anybody would love to have you as their sub. But only I get to have you, right? Only I get to play with you?

Listener Agrees

Fuck. Get up and follow me. **[footsteps // door opens and closes // locks // kissing]** Take these off. Now. Then sit on my lap. **[fabric // pats]** Sit on Mommy's lap, puppy. **[shuffling]** That's a good puppy. I know, it's low lighting in this closet but I want you to look at yourself in the mirror. You are going to watch yourself as Mommy plays with you and makes you cum. Right here.

You're going to love your first orgasm in public. **[chuckle]**

[adlib handstuff until listener orgasm // door knock]

Sorry! We will be out in a minute. Couldn't find our coats in the closet in this lighting and the door must have closed or something. **[chuckle]** Better compose yourself. We have about 20 seconds before they come barging in here. Wouldn't want them to see you half dress, right?
