

Privacy Policy for PDF Viewer

PDF Viewer is developed by **VPS Engineering Tools**.

Your privacy is important to us. This Privacy Policy explains how the PDF Viewer app handles your information.

Information We Collect

PDF Viewer **does not collect, store, or share any personal information**.

The app does not require user registration or login.

PDF Files

- The app accesses PDF files stored on your device only when you choose to open them.
- Your PDF files remain on your device.
- We do not upload, copy, or store your documents on any server.

Permissions

Depending on your Android version, the app may request storage or media access permission solely to:

- Browse PDF files.
- Open PDF documents selected by you.
- Display recently opened PDF files.

These permissions are used only for the app's core functionality.

Recent Files

The app may save a list of recently opened PDF files on your device to provide quick access. This information is stored locally and is never transmitted to us.

Internet

The app does **not** require an internet connection to view PDF files. If future versions include online features, this Privacy Policy will be updated accordingly.

Third-Party Services

PDF Viewer does **not** use:

- Analytics services

- Advertising SDKs
- User tracking
- Data collection services

Children's Privacy

The app is suitable for users of all ages and does not knowingly collect personal information from children.

Data Security

Since your documents remain on your device and no personal data is collected, your privacy is protected. However, you are responsible for securing your own device.

Changes to This Privacy Policy

We may update this Privacy Policy from time to time. Any changes will be reflected on this page with a revised effective date.
