

[Deer populations strong in NE Montana's Region 6](#) May 18, 2021 Montana

Billings Gazette

... The 2021 spring surveys of trend areas showed region wide populations at 84% above long-term average and a 28% increase from the previous survey. The regionwide fawn-to-adult ratios were about average, with 55 fawns to 100 adults.

“The winter of 2020-2021 was generally mild and very favorable for wintering deer ...
