PCJH Families:

We will be returning to in person learning for Friday, December 18th. The water situation has been resolved. The water flow has been restored at the Jr. High. This will allow us to have staff and students return to school for in person learning.

As we are awaiting the 2nd test results to allow for drinking water from our fountains, we will not have water fountains available. We will have bottled water available. We also encourage students to bring their own water bottles that they will be allowed to refill throughout the day.

Thank you for your understanding and flexibility.

Michael S. Olson
Principal
Putnam County Jr. High
