

Hey there!

My name is Asad Islam.

Currently I am working with a private bank. In my student life it's not so easy and smooth. To continue my study I had to make money by doing a part time job.

After finishing my 11th class, I joined a sales and marketing job and continue my study. We usually do traditional marketing to sell products. Sometimes door to door or sometimes B2B. Nowadays there is modern technology and changing marketing strategies.

And now I am working with a reputed private Bank. It's a totally desk based job and I'm bored about it. Because there is no freedom of action. Mostly there is no financial freedom. As a free-spirited person I have a strong desire to work with freedom and make money for a life of freedom.

Recently, one of my good friends advised me to join The real world. To join this platform In my country It's not so easy. But finally I am in there. I see there is a huge opportunity to explore your career in various sectors. I choose myself as a copywriter in digital marketing. Then I continue to learn. To improve your skill this platform will always be with you. They teach you from the depth.
