Group: _____

Student Permission/Information

Name of Child: _____ Teacher: _____

The Farmhouse will be hosting your school group for a farm tour. While this is a safe destination, there are always hazards that we would like to avoid and we need your cooperation!

1. Students should always stay with the group and their supervising adult. No one should be in areas not designated for the tour.
2. No touching equipment without permission.
3. No running or rough-housing allowed, especially near farm equipment.
4. Wash fruit before sampling.
5. Never step on the strawberry beds (the part covered with black plastic). There are pipes beneath that are important for growing strawberries!
6. Wear close-toed shoes if possible, the ground may be muddy in some areas depending on weather.
7. In the event of any accident or injury, please tell the tour director immediately, who can provide first aid assistance or call for further medical assistance as needed.

Does your child have a known allergy to STRAWBERRIES, bees, ants or other insects that they may come into contact with on the farm? ☐ Yes ☐ No

If yes, a parent or chaperone needs to be prepared on site with appropriate medicine in the event your student needs it. Otherwise your student may not be allowed near the harvest area.

The Farmhouse may use my child's photo or video for promotional purposes or in conjunction with local media coverage of the tour. ☐ Yes ☐ No
