Delete original clause 5, and insert as follows.

“—To wage a principled, political anti-Zionist campaign with a view to seeing the destruction of Zionism as an acceptable or credible ideology, especially in view of the role of Apartheid Israel and its lobby groups, both within and outside the Labour Party, in the defeat of the Corbyn movement and general assault on the public sphere, including local government and the universities, by their use of weaponized anti-Semitism as embodied in the bogus IHRA definition;”
