MRS. SCHOONMAKER'S TEST CORRECTION POLICY

If you receive any grade lower than an 80% on a chapter exam…
... you may be eligible to correct your test to raise the grade.

Requirements

1. You must have completed AND handed in the REVIEW SHEET given for that chapter.

2. **You must write out the question and the correct answer of each item that you got wrong on the test!**

3. You will receive up to a point back for each corrected question.

4. You may not raise a grade above 80%, as this would not be fair to those who did well on the test the first time through.

Results

1. Because of this policy, I do not offer make-up exams or extra credit at the end of marking periods to raise final averages.

2. This policy gives everyone a chance to pass, and allows no one an excuse for failure.
