| <b>Chamber Orchestra</b><br><b>During I&amp;E on select days</b><br>Ms. McCarrick                    | Chamber Orchestra is an extra-curricular string ensemble that rehearses before school on A days until 8 AM. Any student who already plays violin, viola, cello, or bass in the school orchestra is invited to audition. Auditions will be held toward the end of September. Rehearsals will start in October. There will be performances throughout the year.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| <b>Debate Club</b><br><b>Mondays</b><br><b>Location - B103</b><br>Ms. Williams                       | Are you a 6th, 7th, or 8th grader who loves to argue — and actually win? Want to learn how to make your point and back it up like a pro? Then come join the Debate Club! Harriton High School students will be leading a fun and interactive club where you'll learn how to argue your side in a parliamentary-style debate. This club will meet most Mondays in B103. Please listen to morning announcements for meeting dates.                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| <b>Fiber Arts</b><br><b>Every other Tuesday</b><br><b>Location - FACS</b><br>Mr. Orlansky/Ms. Greber | Discover the joy of creating with fiber arts! In this club, students can explore knitting, crocheting, weaving, embroidery, and more. Whether you're a beginner or have some experience, you'll learn new techniques, make fun projects, and express your creativity in a supportive and relaxing environment. Join us every other Tuesday afternoon during I/E and after school to develop skills, make new friends, and craft something amazing!                                                                                                                                                                                                                                                                                                                                                                                                                             |
| <b>Math Counts</b><br><b>Monthly - Thursday</b><br><b>Location – G120</b><br>Ms. Shapiro             | MathCounts is a nationwide program designed to increase students' interest and ability in mathematics, and to heighten awareness of the importance of math. It is an opportunity for sixth, seventh and eighth grade students to compete with other students in mathematical problem solving. Practice is informal and allows students enrichment in math, as well as an opportunity to have fun working on unusual problems in groups with other students.                                                                                                                                                                                                                                                                                                                                                                                                                    |
| <b>Morning T.V. Studio Announcements</b><br><b>(Mon. through Fri. at 7:40 am)</b><br>Mr. Brockman    | Students are responsible for editing the script, developing backgrounds and setting up the virtual TV Studio. Students develop live studio skills including: running the soundboard, editing backgrounds, using studio cameras as well as developing teamwork skills. Students also develop video editing skills by developing and producing short films such as special reports, and news intros. Every day the club puts on a live 10-minute production that is viewed by the entire student body. The TV studio also broadcasts several special live productions including student government elections, Spirit Day and assemblies throughout the school year. The TV Studio Club is open to all grades but positions are limited. Positions include: News Anchors, Special Reporters, Camera Person, Live Video Editors, Background Producer, Sound Engineer and Director. |

|                                                                                                                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

| <b>Poetry Club</b><br><b>(First D day of every month in IE)</b><br><b>Location E103</b><br><b>Ms. Granieri</b>          | Do you love poetry? Come join the Poetry Club - a chill, relaxed vibe where we'll study famous poets' works, write our own poetry, and listen to each other's works. #PoetryisPower                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| <b>Print Club</b><br><b>Location E204</b><br><b>Every other Wednesday</b><br><b>Ms. Wallitsch//Ms. Greber</b>           | Use your creativity and artistic eye to create wearable gear for the school! If you love Welsh Valley and want the school to be repped in style, then come join the Welsh Valley Printer's Guild. You will learn the art of silk screen printing and use your new knowledge to design and print clothes to sell to the whole school community.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| <b>School Play/Musical</b><br><b>(Valley TLC)</b><br><b>(Various days in Auditorium)</b><br><b>Ms. Lam</b>              | Traditionally, Valley TLC does an annual Fall Play, Spring Musical and educational trip to Broadway. With about 35 students involved with the Fall Play and about 80 students participating in the musical, it is one of Welsh Valley's most popular extracurricular organizations! Auditions for the Fall Play occur in September with performances in November and auditions are typically held in late November for the musical, which is performed in early March. Students should listen to the morning announcements to find out important information regarding auditions, rehearsals, and performances. Stage and tech crew join the process a few weeks before performances. The performing arts gives students the opportunity to act, sing, dance, and make new friends...come on out and show us you're a triple threat! |
| <b>Science Olympiad</b><br><b>(Monday, Tuesday, Thursday)</b><br><b>Location - A109</b><br><b>Mr. Lewis/Mr. Howarth</b> | This is a competitive science club for students interested in all aspects of science & technology. The students compete in 23 events ranging from biology, chemistry, physics, earth science, technology & environmental science. Students choose events based on their interests; building towers 7 Rube Goldberg's are just a few, & study events such as dynamic planet or diseases & heredity, or combinations of both building & study events. The team will eventually consist of 15 active members.                                                                                                                                                                                                                                                                                                                           |
| <b>Student Council</b><br><b>(Meeting times rotate during school hours)</b><br><b>Ms. Cooke/Ms. Swetland</b>            | Members of Student Council work together with administration, faculty, and staff, using student suggestions and ideas to benefit the WV Community. We plan many school-wide events including Spirit Weeks and Fundraisers. Student Council meets monthly. Anyone interested in joining Student Council will have to follow the application process outlined at the interest meetings and through student email.                                                                                                                                                                                                                                                                                                                                                                                                                      |

|                                                                                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

| <b>TSA (Technology Student Association)</b><br><b>Wednesdays</b><br><b>Location - Tech Ed Room</b>               | <p>This competitive club provides leadership and other opportunities in technology, innovation, design and engineering. Members apply STEM concepts through co-curricular competitive events. Events include Photography, Construction, Forensics, Electrical, Medical, Biotechnology, Public Speaking, CAD, Micro-controllers, Video Game Design, Webmaster, and many others topics. Competitions are held in February, April and June at the Local, State and National levels.</p>                                                                                                                   |
| <b>VEX Robotics</b><br><b>Mondays and Thursdays starting in Nov</b><br><b>Location - F200</b><br>Ms. Bartholomew | <p>VEX Robotics inspires 7<sup>th</sup> and 8<sup>th</sup> grade students to become the problem- solvers of tomorrow. VEX offers students a rich and exciting platform to immerse themselves in the areas of Science, Technology, Engineering and Math (STEM) through the fun of building robots. It is a system of hardware and software that allows students to design, build, and program robots to perform tasks both autonomously and under driver control. Practices are after school on Mon/Wed until 4:30 and competitions are held on various weekends throughout the competition season.</p> |

*\*Please be sure to check the [Daily announcements](#) for the most up-to-date information on daily after school club offerings and cancellations.*
