

Please add yourselves to the “attendees list” below.

Attendees:

- Jamie Thomas (RG)
- Chris Power (RG)
- Lorinne Banister (RG)
- Chris Seebregts (Jembi)
- Carl Fourie (Jembi)
- Rhonwyn Cornell (Jembi)
- Jack Bowie (Apelon)
- Hannes Venter (Jembi)
- Ryan Crichton (Jembi)
- Shahid Khokhar (RG)
- Paul Biondich (RG)
- Dykki Settle (IntraHealth)
- Jim Jellison (Public Health Informatics Institute)
- Mead Walker (CDC/Northrup Grumman)
- Derek Ritz (ecGroup)
- Tiffany Jager (IntraHealth)
- Kelly Keisling (NetHope)
- Odysseas Pentakalos (Sysnet Intl)
- Cy Colvard (RG)
- James Egg (RG)
- Eduardo Jezierski (InSTEDD)
- Wendy Schultz (InSTEDD)
- Nancy Gabor (Consultant)
- Andy Kanter (CIEL)
- Shaun Grannis (RG)
- Carl Leitner (IntraHealth/CapacityPlus)
- Xen Santas (CDC)

Agenda / Minutes:

- Request for AOB – Paul
 - Community Building Activities - Kelly
- Community Updates
 - Client Registry – Shaun/Odysseas
 - performance testing - capacity limits
 - how to improve them further
 - IHE standards - participated in the connectathon for OpenEMPI
 - certified for PIX/PDQ v2 & v3
 - first community call this Friday 2/8 @8am EST (call info [click here](#))
 - get feedback from the community on direction of updates
 - Track 1 - securing the system, synchronizing between SHR & CR,

- improving the workflow of the record pair
 - Track 2 - unique HC identifier - build functionality to assign & track
 - Provided checklist for the ministry of health
 - Derek - can we separate the PIX & PDQ performance testing? looking at a wide variety of transactions and we are doing the performance testing by transaction so you will be able to separate out the PIX & PDQ
 - DR - Update on merge & unmerge? do support through PIX/PDQ but not being used in Rwanda - we need to do it in the web interface in Rwanda
 - SG - short term vs long term solution - fixing it on the ground
- Provider Registry – Dykki/Carl
 - alternate wednesday 10am EST community calls
 - Feb 20 - 10am EST first call (call info [click here](#))
 - better understanding use cases for Rwanda
 - Carl L will join the HIM/SHR meeting this afternoon
 - Anyone interested in joining the PR community please contact tjager@intrahealth.org
- Facility Registry – Ed/Kelly
 - Shared Spec for API
 - first demo linking Dimagi ComCare to registry
 - 1.1 status - issues on GitHub
 - Dimagi identified 4-6 use cases
 - making a referral by consuming data from the FR
 - working on communications
 - reaching out to Mturi(RTI/MoH) for engaging Tanzania
 - the MoH in TZ is interested in OpenHIE and wants something in operational state in the July time frame
 - how do we treat multiple identifiers
 - next technical call on 2/14 @11am EST
- Shared Health Record & HIM – Jembi
 - learn from what we have in Rwanda - and how we can bring forward into OpenHIE
 - working with Mohawk
 - document base or discrete data store?
 - paradigm and model discussions
 - Mead - what issues are driving the discussion
 - model of storing at a doc level
 - evaluate the HIM architecture - is the path the correct one?
 - technically working on IHE profiles - went to IHE connectathon last week
 - will be creating documentation for the wiki
- Terminology Service – Jack/Andy
 - held first call last week for introductions
 - will be holding additional calls and setting up a DTS demo in the next couple of weeks

- IHE Connectathon
 - the connect-a-thon is the HIT industry's largest interoperability testing event
 - implemented Core Profiles - PIX query
 - XDS profile - store and retrieve clinical doc
 - with these profiles it allows us to swap out with others that support those standards - loosely coupled arch based on standards
 - passed all our test for PIX and XDS
 - able to test against many other partners from commercial settings
 - coded in additions to allow us to communicate with others around the world
 - connectathon is preparation for the HIMSS showcase
 - dropped in a OpenXDS SHR
 - we are able to show it works in real world settings
 - opens up some opportunities for us
- Communication Update
 - Final OHIE: [Vision, Mission, Values](#)
 - will review once a year
 - Wiki - openhie.atlassian.net
 - have limited number of user accounts, please let us know if you need any help posting this or run into any issues
 - Website – ohie.org
 - front page clear value proposition
 - case studies that will then link to wiki
 - in the future will have news updates on the site
- Will be sending out risk assessment with today's minutes
 - it will be a survey excel sheet with brief instructions for partners to fill out
- Community Building Activities
 - will be talking to other communities about referrals for participation
- Announcement - Xen Santos
 - Namibia received supplemental PEPFAR funding
 - End Feb meeting -
