From the approved user stories, I created separate user flows for all the 'High priority' tasks and included few 'medium priority' tasks as well.

Please find the details below

No	Role	Task	Priority	User flow
1	As a cloud storage user	I want to upload files	High Priority	Created a separate flow
2	As a cloud storage user	I want to create new folders	High Priority	Created a separate flow
3	As a cloud storage user	I want to search for files with filename	High Priority	Created a separate flow
4	As a cloud storage user	I want to upload folders	High Priority	Created a separate flow
5	As a cloud storage user	I want to organize uploaded content into various folders	High Priority	Created a separate flow
6	As a cloud storage user	I want to share uploaded files/folders with others from the platform itself	High Priority	Created a separate flow
7	As a cloud storage user	I want to be reminded to organize content when a file is uploaded	Medium Priority	Accounted for it by giving the option to choose a folder/ create a new folder while uploading

				content
8	As a cloud storage user	I want to add files to a quick access category	Medium Priority	Created a separate flow
9	As a cloud storage user	I want to share uploaded files/folders with others using a link	Medium Priority	Accounted for it by giving the option to choose between email id or link while sharing a file
10	As a cloud storage user	I want to let others leave a comment on my files	Medium Priority	Accounted for it by giving the option to choose between view only and view and comment while sharing a file
11	As a cloud storage user	I want to create new notes online	Medium Priority	Created a separate flow
