As part of registering for a College Board Advanced Placement course offered by Athens Drive Magnet High School, all teachers and administrators expect students to prepare for and take the AP exams for each corresponding course in May. Teachers dedicate considerable classroom instruction time to helping ensure that students are prepared for their AP exams. In addition, research shows that students who take their AP exams, regardless of their final score on College Board tests, perform at higher levels in college and graduate at a much higher four-year rate compared to peers who opt out of their AP exams. Though it is not suggested, families may request to opt their student out of taking an AP College Board exam.

Please read: *Having heard and understood the information articulated regarding our child's College Board Advanced Placement testing expectation, we choose to exercise the option **NOT** to have our child take the AP exam. We understand that if our child changes her/his mind at a later date, the option to take the exam may no longer be available, and if it is, there will be a late fee of \$40.*
