B.S.Ed. Technology Education K-12

[Edmodo Certified Trainer](#) and [Google Educator](#)

twitter- [@MrZtechTV](#) blog- [RobZtraining.com](#) email- robz@robztraining.com

Workshop Description:

In this session you'll learn the workflow of creating audio podcast episodes using free or inexpensive iOS apps. Students love creating podcasts! Perfect for integrating ELA and Common Core skills such as scripting, collaboration, analyzing and producing media. No longer do you need expensive gear and complex software to make podcasts, as anyone with any iOS device can easily create them on topics of their choice! Free hosting options will be explored, so your audiences can be as private or public as you wish.

Presentation Outline:

1. Introductions
2. Begin Fullscreen Recording (using [Camtasia:Mac](#))
View recorded presentations afterwards at [RobZtraining.com](#)
3. **Audio Podcast Projects**
 - a. [Common Craft Intro Video](#)
 - b. [8 Rules to Effective Podcasting Article](#)
 - c. [Example student projects](#)
 - d. [Podcast Show Notes](#)
