## CONCURRENT ENROLLMENT

### FAQ PAGE

What is Concurrent Enrollment- College level courses taught in your local high school classroom. You receive college and high school credit at the same time. They are taught by qualified high school teachers who are adjunct professors through the university. Concurrent enrollment is the first step to creating a permanent college transcript. It is the gateway to your college experience.

Concurrent enrollment and student participation information and guidelines:

[High school CE course information and guidelines](#)

Who is eligible to take a concurrent enrollment class?

- ✓ Utah high school students
- ✓ Homeschooled students must be enrolled at their local high school
  - Students without an accredited high school transcript showing a qualifying GPA
    - You will need to provide ACT test scores to meet basic eligibility requirements
- ✓ High School cumulative GPA 3.0 for academic courses that give general education credit
- ✓ High School cumulative GPA 2.0 for CTE courses
- ✓ Required college entrance exams (ACT) and (AP) for some courses

What costs are associated with concurrent enrollment?

- ✓ Admission to the university
  - If your school uses more than one university, you could potentially have more than one admission fee
- ✓ Registration/tuition into each concurrent enrollment course that you take
- ✓ Textbooks/online ebooks
  - Admissions to Weber State is a \$30.00 **one time fee**. You will never be asked to pay this again.
  - Registration/tuition is \$5.00 per credit hour and is paid for every concurrent enrollment course that you take during your high school years.
  - Text books and online books can range anywhere from 50.00-150.00.
  - **THERE ARE NO FEE WAIVERS FOR COLLEGE COURSES**

What is a credit hour in college?

- ✓ Each college course has a certain number of credits earned per subject e.g. Math 1050 is a 4 credit hour course so the cost would be  $5.00 \times 4 = 20.00$  for the class.

How many college credits can I earn each year while in high school?

- ✓ You can earn up to 30 credits a year
  - This is done over both semesters e.g. 18 credits first semester 12 credits second semester or a combination of up to 30. This is considered full time college.

How do I enroll in a concurrent enrollment course?

- ✓ You receive information from your CTE/CE office in your high school each semester
  - You will be provided with a link to follow (see below)
- ✓ [WSU Concurrent Enrollment](#)
- ✓ Deadlines are announced by your teachers and in your Canvas/Google classroom
- ✓ Your teacher will provide you with their CRN (course number)
- ✓ See Tami in the Lighthouse if you need help with admissions or registration

### Creating a permanent college transcript:

- ✓ Taking your first concurrent enrollment course generates your permanent college transcript
- ✓ What that means for you
  - Just like a high school transcript, your letter grade is posted and generates your college GPA and academic standing at the university
  - This is a permanent record and cannot be altered

What if I don't like the class or am not doing well in it?

- ✓ Dropping a course vs. Withdrawing from a course
  - **Dropping** a class within the appropriate deadline deletes the course from your college transcript, like you never took it.
  - This deadline is generally the same day as the last day for registration/tuition due
  - Your teachers provide these deadlines as well as on the concurrent site
  - You will need to meet with your high school counselor and see Tami in the Lighthouse to completely drop a course
  - **Withdrawing** from a course happens after the drop deadline has been missed
  - This results in a permanent "W" on your college transcript
  - This does not affect your GPA, but can have other consequences
  - You will need to meet with your high school counselor and see Tami in the Lighthouse to completely withdraw

Can I take a concurrent enrollment course again if I fail it as long as you do not withdraw from the class.

- ✓ Yes.
  - You can repeat a concurrent enrollment class in high school under certain circumstances
  - You can take it again when you attend the university if you so choose

Reduced tuition costs-

- ✓ 15.00 for a three credit concurrent course as opposed to 858.00 for a three credit class at the university

Check out this website that shows you how to pay for college, apply for scholarships and so much more.

This link provides help on CE classes and how to use them for post high school education.

### **Accommodation for Disability, IEP's and 504's**

PPM 3-34 notes: "When students seek accommodation in a regularly scheduled course, they have the responsibility to make such requests at the Center for Students with Disabilities before the beginning of the quarter [semester] in which the accommodation is being requested. When a student fails to make such arrangements, interim accommodations can be made by the instructor, pending the determination of the request for a permanent accommodation." **Weber State University Concurrent Enrollment students** who have a pre-established 504 Plan or IEP may continue using the accommodations established therein during CE courses, provided that the accommodations have proven effective and are reasonable for a university level course. Faculty, staff, parents, and students may contact WSU Disability Services at any point to discuss or verify accommodations for CE classes. CE students should discuss their accommodation needs with faculty as soon as possible. Most questions or situational issues can be discussed and subsequently resolved to meet the students' needs. Students should provide faculty with written (print or email) requests of accommodations for their approved 504 or IEP plan.
