(and join the “workshop” channel)

One-time login requirement

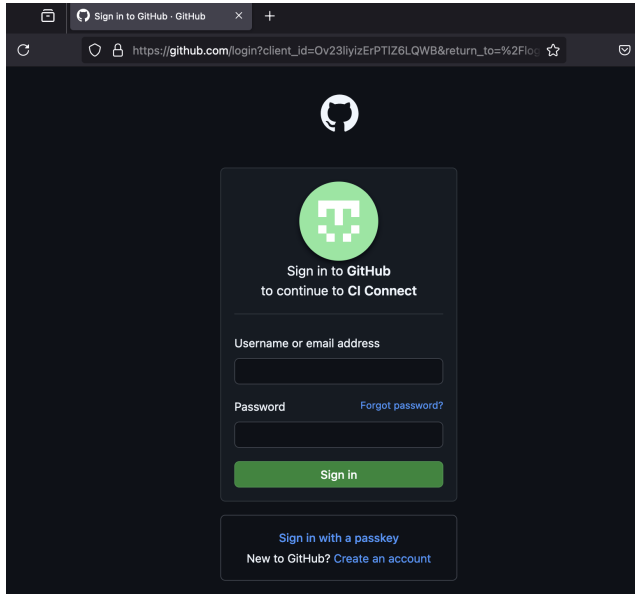

1. Go to <https://connect.tempest.uchicago.edu/>

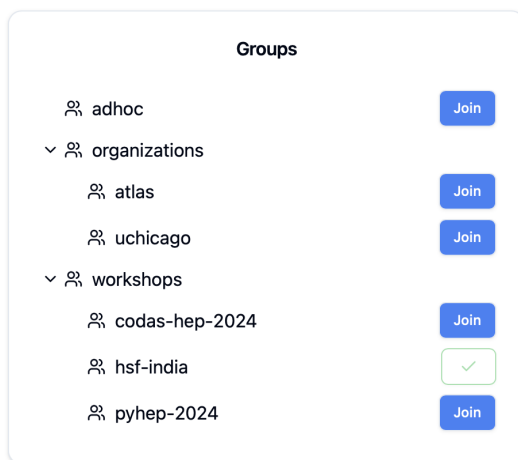

2. Click SignOn

3. Select “GitHub” and follow the authentication process (which may differ depending on how your GitHub account is set up).

4. Select workshops and then “Join” hsf-india (and ONLY hsf-india). Please do not select other organizations or workshops as that may void your request to join the hsf-india group. Your request requires approval so will not immediately grant you access.

Once you select hsf-india, you are done! I then need to approve the request

**In case of problems** - send a message to #support on the Slack workspace above
