Group X: Artifact Proposal
<Artifact Name>

<team members names + emails>
<date>

High level description
<a paragraph or two describing what you're building>

Feature list
<the list of specific features you will build>

Team assignments
<what will each team member do>

Development plan
<a high-level development plan, what are all the pieces you need to build, what will you do in what order.>

Checkpoint
<what you will complete and demo for the checkpoint – May 28. You will be graded against completion of these things, so be realistic!>

Materials and any external help needed

<e.g. 3D Assets, Paid Software, Hardware… please specify if needed. If your project requires reimbursement for purchased items, list all such items and we will consider them.>

Key Risks and Mitigations

<Use this section to outline key risks and describe mitigations -- if Plan A doesn't work, we will execute Plan B, etc.>
