Dear Parents,

Three new schools are currently under construction in Weber School District; an elementary, Junior High, and a High School. All three schools are in our current Kaneshville boundaries. These schools are set to open for the 2024-2025 school year. Because of this, there will be some boundary adjustments, which will affect us. As per Board Policy 4151, Kaneshville along with all other impacted schools were asked to form school boundary study committees to make proposals regarding these adjustments. Below you will find a list of those serving on the Kaneshville Boundary Committee and each has been assigned to represent areas of our current school boundaries.

On April 19th, 2023, there will be an open house at Rocky Mountain Junior High at 6:00 PM for anyone interested to attend. It is important to note that no decisions have been made yet and the public will be given the opportunity to provide feedback. You can provide input or feedback by reaching out to me directly at chadams@wsd.net, to your area's committee member, submitting feedback through our school website under "Parents - Boundary Study Information - [Community Feedback Form](#)," or attending the open house at Rocky Mountain on April 19th.

If you have questions, you can contact the school or one of the committee members.

Regards,

Chance Adams
