

Nonprofit Network Initiative

The [Nonprofit Network Initiative](#) by Compass4Careers is meant to connect student nonprofits with grant opportunities, sponsorships, bigger audiences, and fellow organizations.

Current Numbers - **85 organizations, 25 US states & 24 countries**

Why this initiative?

As a nonprofit founder myself, I found it hard for high-school students to make connections with the right people. Some organizations were too far away, others were run by people I had never met. I knew there had to be other people interested in partnerships and grant opportunities and this initiative is meant to bring them together. That's why Compass4Careers is looking for nonprofits/organizations (like yours!) to join this initiative and connect with fellow leaders!
