Dear Parent and Student,

Jasper High School is pleased to announce the option for students to take Health as an online course during the summer. The online course will be published on Canvas and be open for students no later than June 15 -August 1st. This will be a self-paced course which means students can start the coursework any time once the course is opened with all assignments to be submitted by August 1.

It is important to understand that this online course will count towards the student's G.P.A. and failure to complete the course will result in a failing grade on the student's transcript.

There is no fee.

For planning purposes, the signup deadline for the summer online Health class is **April 1**.

If you have any questions, please call my office at 482-6050.

Sincerely,

Geoff Mauck
