Example of a student who would be discussed at this meeting?	Ex: The average student - weak in some areas, strong in other areas. These meetings often lend conversation to best practices to reach all students.	Ex: Student who sits close to the teacher, student who needs specific directions to get assignments done, student who needs extra support in reading or student who uses a wobble seat	Ex: Student in Counseling Student in Community Classroom Student in Math Intervention with EA Student in Enrichment with EA	Ex: Student on an IPP or receiving an individualized program
Notes:	Collaborative Planning also happens naturally in Division Meetings (Pebbles), Baseline Data Meetings, PD days	Exception: LLI students are considered Tier 2 students as this extra reading support could be done in the classroom but at Blueberry, it is often not	Difference between Tier 2 and 3 is Tier 2 are supports within the classroom and Tier 3 are supports outside of the classroom	Outside resources, agencies and further testing may be accessed
