

Department: Mathematics and Statistics

Course Information: Calculus 1 Math 1296

Instructor: Professor Laura Carr

Below is information about the sections of the course, the number of LAs we expect to hire per section, and the meeting times that you will be expected to attend for each section.

Before you apply, ensure that these times fit into your schedule.

Section #	Expected Number of LAs for this section	LAs need to attend course functions at the following times:
13	3	Each LA will hold several sessions each week. They may be in the morning, afternoon, or early evening. The times for the sessions will be based on LA schedule availability. Potentially attend class times M, W, F from 11:00-11:50am.

In addition to being available for the times listed above, working as an LA also requires the following:

1. All LAs must meet weekly with their faculty member to prepare for the following week’s events at a time mutually acceptable to the faculty and LA
2. **All new LAs** must be available to attend a training from 4:30pm – 8pm on Monday, August, 2026 (if you have extenuating circumstances that prevent you from attending this training, please contact Carrie Misuraco at cmisurac@d.umn.edu)
3. **All new LAs** must be available to complete training on one of the following weekly times:
 - Wednesdays 3-3:50pm
 - Wednesdays 4-4:50pm
 - Thursdays 2-2:50pm

What will an LA do in this course?

The role of the LA varies slightly in each course. Read below for more information on the LA's role in this course.

What is the role of the LA in this course?

LAs in Math 1296 will primarily be holding LA sessions where they will be guiding students through an activity or worksheet, and they will answer questions students have about the homework or course content. LAs will have access to the course materials and assignments so they can be prepared for the content. During our weekly preparation sessions, LAs will have the opportunity to collaborate with me by providing feedback on what's working in the course and providing suggestions about activities and opportunities for improvement.

How could being an LA for this course benefit you?

Being an LA for Math 1296 will help solidify your skills and understanding of the course and be a great item to list on a resume.
