26. Bulborb (Pikmin)

Sebastian Debeste (Ace Attorney Investigations 2)

Decided to move him up because I've realized that I relate to him a LOT more than the others. Like, I feel that if I was born to a father like Blaise I would have grown up to become Sebastian in real life. But like... I feel like I already am? I usually shove him in where I don't want to use my persona and I have started to use the name Sebastian as my own and I feel REALLY uncomfortable seeing him with trans fem headcanons given my own experiences with femininity.

I just feel like he's my "Main" kin if you could have one. He's the one I think of as myself or closely related to myself the most. I find it difficult to make an Ace Attorney persona because of him, I just feel like I'm copying him. He was the first character I made an OC sibling for because

I wanted to see more content of him. I've been with this prosecutor since I was young and he's an integral part of my life now. So much so that I get physically *sick* seeing something as simple as a name change happen to him.

I am literally this guy irl

I kin these guys THE MOST and relate VERY heavily to them in almost every single aspect of their character. You can take this however you want and if you also kin them (Which I doubt anyone would, given most are from unpopular/unknown media) I might be a bit iffy with you depending on why you relate to them, *ESPECIALLY* Mika and Alois given their backstory.

1. Alois Trancy (Black Butler)
2. Oh Young-One (Mignon)
3. Mika Kagehira (Ensemble Stars!!)
4. Hibiki Mamiya (Is it Wrong to Want to be Locked up, Toyed with and Tortured By a Hot Guy?)
5. Yuusei Shirosaki (My New Boss Is Goofy)
6. Hitoshi-san (Nyan~ Neko Sugar Girls)
7. Green Monk (Rainworld Obby)

Primary Kins

I heavily relate to them in a lot of ways but not as much as the previous tier. If you kin these guys you're epic.

1. The Grim Reaper (A Date with Death) (Yeah I'm not using his real name that's a spoiler)
2. Toby Erin Rogers (Creepypasta) (The OG story and some old fanon)
3. Idia Shroud (Twisted Wonderland)
4. Edgar Allen Poe (Bungou Stray Dogs)
5. Kazuichi Soda (Danganronpa 2: Goodbye Despair)
6. Selever (Mid-Fight Masses)
7. Skittles (Tankmen)
8. Charles Cuevas (Danganronpa Despair Time)
9. Marble Bread Cookie (Cookie Run) (Assigned by Griefer)
10. Bai Ze (Non-Human)
11. Libby Stein-Torres (The Ghost and Molly McGee)
12. Sebek Ziggvult (Twisted Wonderland)
13. Hitori Gotoh (Bocchi the Rock!)
14. Fourteen (BFDI)
15. Aurum Kingfisher (TWST Future AU)
16. Quincy (NU: Carnival)

Secondary Kins

Since I don't really kin characters unless I relate to a majority of their personality/story, these guys *are* ones I relate to a lot; we just have less in common overall OR there's a *huge* part of

their character that I just do not have/relate to/know enough about. This is why they're not on the main list up top.

Prussia (Hetalia)

Thought over this a *lot* and my conclusion is this; We act the same in a lot of ways but he is *much* too extroverted and self confident to be a primary. Also he drinks beer. I could honestly see myself being besties with him and *maybe* getting better alongside it? Whatever, we can take a piss together.

Iketeru Daga (Uramichi Oniisan) (Assigned by my brother)

I do *not* have the confidence to be an actor on a kids show or do half the shit this guy does with coworkers.

Vincent Charbonneau (Dead Plate)

I can taste shit lmao. I also *cannot* handle sour things, nor could I run a high end restaurant. Also that whole scene where he threatens to burn the one cook on the stove is only in my mind, I'd never actually do it.

Mash Burnedead (Mashle)

If I lifted and got stronger we'd be the same guy. Also I fucking *hate* cream *fuck* cream get that shit away from me.

Sayori (Doki Doki Literature Club)

She goes out of her way to make friends and attend clubs and take the initiative which I would *never* do.

Things that aren't characters

Vampires

Just... The entire species. I'm legitimately a vampire in a human body. This has only become more real since the pizza situation.

TV Static

Literally one of my first OCs was a personification of TV static. I have a LONG history with this shit and it's kinda personal ngl. There's a reason it's my icon in most places.

FIDLAR

A **LOT** of the songs. Specifically in no particular order; *No Waves*, *By Myself*, *Sober*, *FIX ME*, *I DON'T WANT TO DO THIS*, *Leave Me Alone*, *I JUST WANNA DIE* (ft. *The Los Angeles Fire Department*), and *GET OFF MY WAVE*

Better Than Me

Song made by The Brobecks
It goes HARDDDDDD!!!!!!!!!!

Cicada Days

Song made by Will Wood

I've honestly considered putting more cicada bits in my sona design because of this song.

Joke Kins

As the title says these are jokes and I only kin them because it's funny.

Branch (Trolls) (BUT ONLY IN THE FIRST MOVIE. BEFORE HE LIKES SINGING)

Because I don't like their singing.

Bulborb (Pikmin)

I want to eat Pikmin so fucking badly.

Kinmates AU

If you wanna know, ask Sip.

1. Kazuichi Soda (Danganronpa 2: Goodbye Despair)
2. Sebastian Debeste (Ace Attorney Investigations 2)
3. Charles Cuevas (Danganronpa Despair Time)
4. Toby Erin Rogers (Creepypasta) (The OG story and some old fanon)
5. Rouxls Kaard (Deltarune)

Kinsidering

Angel Camael (Angel Hare)

He's *rarely* shown off his real self and most of his time on screen is acting like other characters; but for some reason I feel such a connection to him. I'm not sure if it's his personality or how he acted with Segen, but *something* in there is reaching to my soul and calling out to it. GO FUCKING WATCH ANGEL HARE PLEASE PLEASE PLEASE-

Eve (No Straight Roads)

The way she struggles with not being understood by others, especially those she loves, is something I struggle with too much to not acknowledge.

Assigned Kins

I'll be examining each of these characters too in depth to see if I would kin them or not. If I do, they'll be listed above as well as down here.

Iketeru Daga (Uramichi Oniisan)

Assigned by my brother

I laugh at stupid shit for as long as he does in that one scene. Also I'm childish.

Mask (Splatoon)

Assigned by Ace

Tired edgy gamer guy that uses a roller. Yeah.

Marble Bread Cookie (Cookie Run)

Assigned by Ace

We're both tired eepy guys who don't want to do SHIT. Honestly I'd KILL for his job oh my god cleaning shit would be so easy and mindless. My favorite part of my kitchen job was washing dishes at the end of the night because I would be all alone in the kitchen doing repetitive tasks with nothing else important to do. The only bad thing about it was the fact I was being rushed.

Branch (Trolls)

They said it's because I hate their signing and they're right. It fucking sucks.

PDA (BFDI)

Assigned by Rai.

I can see where he was coming from with this with the whole, "They all hate me!" thing, and I can't deny some of these scenes I've seen feel eerily similar. There is a major difference between PDA and I. *Confidence*. Whilst PDA is assured that they're not the problem, I'm the complete opposite. PDA thinks everyone hates them because *they're* bad people, whilst *I* think everyone hate me because *I'm* a bad person. The reflection scene is the best example of this. PDA hypes themselves up as they put others down which is *not* something I'm good at.

The thing I can relate to most is their attitude and voice unfortunately. I fucking hate my voice it sounds too feminine and PDA sounds kinda similar.

Pillow (BFDI)

Assigned by Rai

...Do you think I'm a sadist or something? I can promise you I am NOT this violent. I am careless yeah, but I would NOT just- Okay if I knew they could respawn I totally would, but not this much. I'd get too anxious thinking about what everyone else thought of it to do it more than once with someone I knew. Also I'm an empath so-💥

Lollipop (BFDI)

Assigned by Rai

I thought it was only an attitude thing until the singing in the car scene. It's so true.
