

MAMARONECK UNION FREE SCHOOL DISTRICT
Office of Curriculum and Instruction

Elementary Science Curriculum

MUFSD implements the *Science21 Curriculum* developed by Putnam/Northern Westchester BOCES and designed to align to the New York Science Learning Standards. You can learn basics about the program here:

<https://pnwboces.org/Science21/index.html>

As we ensure the most effective and efficient science education in our elementary schools, with the most appropriate opportunities for interdisciplinary approaches to literacy, we are working with our teachers to map *Science21* units. See below for scope and sequence documents for each grade level:

- [Kindergarten Scope and Sequence](#)
- [Grade 1 Scope and Sequence](#)
- [Grade 2 Scope and Sequence](#)
- [Grade 3 Scope and Sequence](#)
- [Grade 4 Scope and Sequence](#)
- [Grade 5 Scope and Sequence](#)

Access the New York State Learning Standards for all subjects here:

<https://www.nysed.gov/standards-instruction/nys-p-12-learning-standards-content-area>

If you are interested in learning more about the curriculum, please contact:

Mr. Robert Hohn
Director of STEM
