Watch the [video about bundles](#).

This bundle was created to edify and support your research interests. Recommended resources have the first word of the reference highlighted with light text over a dark background (e.g., **Akbarian**).

Some of the links go to research paper vendor sites with just the abstract available. To read the full article, sign in to [HOLLIS Library](#) and do the title search there.

Keywords in search: consciousness; unconsciousness; unconscious processes; consciousness and learning; unconscious and conscious; neuroscience; neural correlates of consciousness
