

Hi **[Boss's Name]**,

I wanted to run something by you. I've come across **Generative AI Summit** by AI Accelerator Institute, happening in Boston, and I think it could be a great opportunity for me, and potentially really valuable for us at **[Company Name]** too.

Event info: <https://world.aiacceleratorinstitute.com/location/boston>

It's tailored specifically for engineers, builders, and product teams, with sessions focused on topics such as inference optimization, model fine-tuning, deployment at scale, and agent architecture — areas that are increasingly relevant to our work.

From what I've seen, the format is very practical, with a mix of keynotes, panels, and technical deep-dives. I'm particularly interested in strengthening my knowledge in **[X]**, **[Y]**, and **[Z]**, which ties in well with some of the goals we've been discussing lately:

- **Goal #1:** [insert goal]
- **Goal #2:** [insert goal]
- **Goal #3:** [insert goal]

Some well-known companies will be speaking—like **[X, Y, Z]** — and past feedback has been really strong. One quote that stood out to me was:

"It's really awesome to see & meet so many builders, cool companies, researchers – everyone pushing the field forward technically."

— *Victor Riparbelli, CEO & Co-Founder, Synthesia*

Would it be possible for **[Company Name]** to support me financially to attend? I'd be happy to put together a short report afterwards with key takeaways, ideas we could bring back, and anything else you'd find useful.

Happy to chat more about this whenever works for you.

Thanks,
[Your Name]
