

Privacy Policy

Welcome to Feynman AI, an iOS mobile application designed to enhance your learning experience using the Feynman technique. Your privacy is important to us. This Privacy Policy outlines how we handle your data and explains your rights regarding your information.

1. Data We Collect

Feynman AI does not collect or store personal data from users. We do not require registration or login to use the app, ensuring a seamless and anonymous experience.

2. Payment Processing

Subscription management and payments are handled securely through Apple's in-app purchase system, integrated via RevenueCat. Feynman AI does not store or process your payment details. RevenueCat may process certain data related to your subscription, and their privacy policy can be reviewed [here](#).

3. Analytics

To improve our app and provide better services, we use **Firebase Analytics**, which collects anonymized data such as app usage and crash reports. This data helps us understand user interactions and troubleshoot technical issues. Firebase does not collect personally identifiable information (PII). You can learn more about Firebase's privacy practices [here](#).

Data Collected via Firebase Analytics

Feynman AI collects the following data anonymously via Firebase Analytics:

- **User Interaction Data:** Information about how the app is used (e.g., taps, app launches, and other interaction events).
- **Performance and Diagnostic Data:** Data such as crash reports, app launch times, freeze rates, and energy usage, which are used to improve the technical performance and reliability of the app.

This data is not associated with any user identity and is used solely to enhance the app's functionality. For more details, please visit the [Firebase Privacy Policy](#).

4. Notifications

Feynman AI may send push notifications to keep you updated about your subscription status or app updates. Notifications can be disabled at any time through your device settings.

5. Data Security

We prioritize your privacy and security:

- No personal data is stored or shared.
- All communication related to payments and analytics is encrypted and secured using industry-standard protocols.

6. Third-Party Services

Feynman AI integrates the following third-party services:

- **Apple In-App Purchases:** For subscription management.

- **RevenueCat:** For handling subscription transactions and analytics.
 - **Firebase Analytics and Notifications:** For app usage insights and notifications.
- Each third-party service has its privacy policy, and we encourage you to review them:

- [Apple's Privacy Policy](#)
- [RevenueCat Privacy Policy](#)
- [Firebase Privacy Policy](#)

8. Changes to This Privacy Policy

We may update this Privacy Policy from time to time to reflect changes in our practices or for other operational, legal, or regulatory reasons. Updates will be posted within the app and on our website.

9. Contact Us

If you have any questions or concerns about this Privacy Policy, please contact us at:
