

## Submit a Music Track

So, much like the Assist Trophies, we will also allow participants to include music.

**Please include the name and the game it comes from. This allows us to put them in chronological order.**

That being said, it's easy to go overboard so we are putting a cap on music tracks. You can request to increase the cap and that will be considered but isn't a guarantee. The caps are subject to change if we do add in a new stage to that series. Please refrain from mass posting musical tracks and submit one. You will notice that there is a number like 5/15. That means that while we will be adding 15 songs total, only 5 will be accepted currently. This is to avoid quickly filling stuff all in one go but to span things out over a greater length of time.

NOTE: A cap increase request may not be granted for several reasons. This may include days after this was initially posted, lack of music to a particular series, over-abundance of music in a particular series, and so on. Furthermore, a series may get an automatic cap increase if a newcomer or a stage is included from that series. Case in point, Mario went from 6 songs to 15 songs due to the inclusion of the Bowser Castle and Dr. Mario stages as well as Waluigi.

**Remixes are ok but please credit the creator**

**Please do not post multiple tracks. Remember to check first. If you are unsure this song was already in Smash, [please check the Smash Wiki](#).**

On the Wiki = OTW (this means all the songs above this point is on the wikia)

## **Other - 79/82**

*I know I botched up the numbers, periods, or spaces - feel free to fix what is broken.*

*Please note that music should be at least featured from a game that is on a Nintendo system. Having stronger connections to Smash via Spirits, Mii costumes assist trophies, and so on. Any songs that do not fit this criteria will be removed and replace*

*I've noticed a large amount of third party music which is fine but I would like us to focus on adding music from Other Nintendo series as well. Let's begin adding music from Other series within Nintendo.*

**Red** means it has been removed and will be deleted shortly. That space will then be open.

**Pink** means that it needs to be place in a different, more appropriate section

**Green** means that this series has a max number of songs to it and no more can be added
